*The most comprehensive documentary on the devastating Fentanyl crisis ever made; Fentanyl is now the **leading cause of death among Americans aged 18-45.***

Featuring interviews from law enforcement, medical professionals, international and domestic supply chain experts, policy makers and families impacted by the epidemic.

*The 60-minute documentary is produced by **Fentanyl expert and former White House Policy Advisor, Dr. Robert G. Marbut Jr.***

San Antonio, Texas (April 6, 2025) - Blending investigative journalism with deeply personal stories, *Fentanyl: Death Incorporated* paints a sobering picture of how the exploding Fentanyl crisis is affecting communities, national public health and global stability. Dr. Robert G. Marbut Jr. - who has worked in three different U.S. Presidential Administrations - serves as producer,

giving insight and expertise on one of the most pressing public health issues of our time and the urgent need for effective solutions. Scheduled for national release through Warner Brothers ADA on May 6, *Fentanyl: Death Incorporated* is directed by Stephen Wollwerth and narrated by actor William (Billy) Baldwin, and is a Zackito Productions Movie in partnership with 3Gates Films.

“Audiences who have seen this documentary are shocked and alarmed by how dangerous Fentanyl has become,” said Marbut. “The Fentanyl crisis is way bigger than a problem with drug addicts; Fentanyl poisoning is killing people of every age, race, economic bracket and area of our country - it truly affects all of us. It is essential that everyone in the U.S. educate themselves on Fentanyl – which is the deadliest drug ever created on planet Earth. Watching *Fentanyl: Death Incorporated* is an important first step.”

Sobering details presented in the documentary include:

- The leading cause of death of Americans in the United States is Fentanyl overdose in 18-45-year-olds.
- Deaths due to Fentanyl in the USA, equates to more than one Boeing 737-900 crashing every day of the year, 7-days a week, 365 days a year
- Fentanyl is 50 times stronger than heroin and 100 times stronger than morphine.
- 2 milligrams of Fentanyl (about 1/15th of a grain of rice) is a lethal dose.
- One kilogram (35.3 ounces – equal to the weight of about one quart of milk) of fentanyl has the potential to kill 500,000 people.
- Fentanyl overdose was the cause of death to Prince, Tom Petty, Lil Peep, Luke Bell and Angus Cloud.

The documentary provides an in-depth understanding of Fentanyl: how it is used, its effects on the body, and its various forms and derivatives. It explores the shift from organic opioids to synthetic opioids, and the roles of China, Mexico, and Canada in the international drug trade.

Additionally, *Fentanyl: Death Incorporated* evaluates current harm reduction strategies and the urgent need for real solutions, while proposing strategies for addressing the crisis and mitigating its effects.

Dr. Robert G. Marbut Jr. (Senior Producer) Fentanyl National Expert / Former White House Homelessness Czar / Senior Fellow Discovery Institute.

Dr. Robert G. Marbut Jr. has worked on issues of illicit drugs, such as Fentanyl, and homelessness for four decades: first as chief of staff to San Antonio Mayor Henry Cisneros, then as a White House Fellow to President H.W. Bush (41, the Father), later as a San Antonio City Councilperson/ Mayor-Pro-Tem and as the Founding President & CEO of *Haven for Hope* for five years (the most comprehensive homeless transformational center in the USA).

He has also worked in three different US Presidential Administrations, including serving as the Executive Director of the US Interagency Council on Homelessness, often called the “Federal Homelessness Czar.”

He earned a master's degree in criminal justice from the Claremont Graduate University (part of the Peter Drucker School), and a Ph.D. in International Relations with an emphasis in terrorism. Later, while serving as Mayor-Pro-Tem and Councilperson of San Antonio, he held and led the Public Safety Portfolio for San Antonio (the 7th largest city in USA). During his tenure violent crime, such as drive-by-shootings, dropped significantly. He often worked on criminal justice policies and issues while working in the White House. While an officer and executive committee member of the US Olympic Committee, he was a US signatory of the World Anti-Doping Agency “CODE” which established the framework for anti-doping efforts around the world.

Dr. Marbut has consulted on the issue of homelessness with more communities and organizations than anyone else in the USA. Since 2017, the skyrocketing misuse of Fentanyl within the homelessness community has become the number one homelessness sub-issue, with much of his daily work being focused on reducing Fentanyl use.

He is Executive Producer of the *No Address* movie starring Billy Baldwin, Beverly D'Angelo, Xander Berkeley and Ashanti, and is also the Senior Executive Producer of *Americans with No Address* documentary, and the primary Author of the *No Address - Inactive Study Guide*.

Beyond his Criminal Justice Master's Degree and his Ph.D. from The University of Texas at Austin, Austin, Texas in International Relations, he also earned a Master of Arts degree in Government from The University of Texas at Austin. His Bachelor of Arts is a Full Triple Major in Economics, Political Science and Psychology (Honors Graduate) from Claremont McKenna (Men's) College. He also earned an Aviation Technology Level 1 Certificate from Palo Alto College.

Dr. Marbut also has completed three post-graduate fellowships, one as a White House Fellow (US's most prestigious program for leadership and public service), one as a CORO Fellow of Public and Urban Affairs in Los Angeles, and one as a TEACH Fellow in the Kingdom of Bahrain and the State of Qatar (1 of 13 USA educators selected). He was also a member of the Secretary of Defense's Joint Civilian Orientation Conference 2000 class (JCOC-63) which is DOD's premier civic leadership program and focused on Special Operations.

Stephen Wollwerth (Director and Editor) [Founder, 3 Gates Films](#)

Stephen started the business in 2010 with the development of aerial platforms before anybody knew what drones were. His innovations were featured in Scientific American magazine and many other publications for being the first person to ever fly a cinema camera from Blackmagic Design on a RC platform for a high profile multi-million dollar Fox Sports Ad. Stephen is a director of

photography and editor, and is supremely passionate about making quality productions that grip the viewer and call to action. The documentary he produced on the flood in Iligan Philippines helped build homes for 50 families. He was also a DP and editor for a national PBS television series seen by millions of viewers.
